

Brownstone's Video Surveillance Systems

H.264 Hybrid Series

H.264 Hybrid is the most advanced standalone 4-Channel DVR developed for all industrial applications. In addition to its smooth professional design, it is very reliable and cost effective. Most of all, its small recording file size, 2-channel IP camera(s) recording and powerful remote control function with high speed transmission over network will become the standard to which other security systems are judged. It includes: 1/3" Sony HQ1 Super HAD CCD Super High Resolution 540TVL 0.5LUX@F2.0 with f3.6mm/2.0 Fixed Iris Lens Color Dome Camera 12Vdc, Pre-made Combo Cables 100ft and 12V DC 1000mA UL Power Supply.

Features:

- Triplex Operation: Live/Playback, Record, Network
- Supports up to 3 Internal SATA HDDs
- Dual-Codec for H.264/MJPEG Recording
- 2-CH IP Camera(s) Recording
- 4-CH/8-CH/16-CH Audio Recording
- Mobile View Software; Pre-Alarm Recording
- DVD-RW, USB Backup, Up to 3 HDD (without DVD) ** IR distance
